

Welcome to **THE DIGGERS CLUB**

You have been gifted a membership!

We believe everyone can have a garden that is not only productive, but beautiful as well.

As a Diggers Club member, you'll be given all the help you need to succeed in the garden. Since 1978 we have worked to find the best plants for Australian gardens, trialling all our plants and seeds ourselves.

Diggers members receive:

- ◆ **Seasonal magazines** — 6 magazines each year full of practical garden advice and inspirational ideas for your garden.
- ◆ **Member discounts on all our products** — shop online at www.diggers.com.au and we will deliver to your door OR visit one of our garden shops and nurseries.
- ◆ **Member exclusive products** — Each magazine has a selection of plants, seeds and bulbs that are only available to Diggers members.
- ◆ **Free seeds** — Select 4 packets of free seeds in autumn and spring – keep an eye on your magazine or our website for these offers.
- ◆ **Unlimited access to three of Australia's finest gardens** — Heronswood in Dromana, the Garden of St Erth in Blackwood and Cloudehill in Olinda, Victoria.
- ◆ **Access to our online member area** — Articles, video tutorials, fact sheets and more are available to you online in our member area. Not sure how to plant garlic? Just log in and look it up!
- ◆ **Personal garden advice** — Access via phone, email or in-store to our horticulture advisors, someone to answer all your gardening questions!

The Diggers Club, along with Heronswood and the Garden of St Erth, is owned by The Diggers Foundation. Your membership helps to support our work promoting the diversity of heirloom seeds and garden-worthy plants, and preserving our historic buildings and gardens.

Your **Welcome Pack and Membership Card** are on their way in the post. Once you receive them, visit our website www.diggers.com.au and register. This will give you access to all of your member benefits.

If you have any questions, please call us on **03 5984 7900**.

Happy gardening!

The Diggers Club Team
